EDUCATION

BACHELOR'S OF COMPUTER SCIENCES | PMAS ARID AGRICULTURE
May 2022 | Rawalpindi, Pakistan

Coursework:
• Mobile App Development • Algorithms & Data Structures • System Programming
• Object Oriented Programming • Computer Graphics • Artificial Intelligence

Project: Document Management System
Made Covid-19 document management system for small businesses using MERN stack. Allows CRUD on documents, user/role management, notifications, and admin control.

EXPERIENCE

MERN STACK BOOTCAMP | BITSOL TECHNOLOGIES
November 2022 – Feb 2023 | Islamabad, Pakistan

→ **Project: Auto Gemz**
Developed small-scale PakWheels clone using MERN stack. Allows CRUD operations for items, and has smooth user and admin flow.

→ Acquired web development and deployment best practices, including server-side rendering, routing, and database integration. Developed practical skills in building RESTful APIs, using third-party libraries and tools, and deploying applications.

Skills: | React.js • Node.js • ExpressJS • MongoDB • Bootstrap • Redux-Toolkit-Query |

PIE TECHNOLOGIES | STARTUP
March 2023 – ongoing | Rawalpindi, Pakistan

→ **Project: Pie Technologies**
Created a simple, elegant, and responsive website for a startup.

→ **Project: PieTech Boots-ATLRMS**
Developed a Learning Management System with MERN stack for bootcamps and self-paced training programs. Includes online registrations, attendance, exams, materials, and feedback. Features separate dashboards for admin, monitoring, trainers, and trainees.

Skills: | React.js • Node.js • ExpressJS • MongoDB • Bootstrap • Redux-Toolkit-Query |

CERTIFICATES

RESPONSIVE WEB DESIGN FREECODECAMP
February 2023
Earned "Responsive Web Design" certification from FreeCodeCamp, which taught CSS Grid, Flexbox, and media queries for creating adaptive websites. Also learned about web accessibility for people with disabilities.
